

George Flores

(980)328-2800 | gflores@uncc.edu

Objective

UNC Charlotte graduate seeking an entry-level position to enhance and acquire new skills in full stack development. Relevant experience includes working with small teams, designing user interface application, and web design.

Education

BACHELOR OF ARTS, COMPUTER SCIENCE | UNC CHARLOTTE

- Concentration in Information Technology
- Minor in Communication Studies
- Overall GPA: 3.086
- Dean's List on December 2016, issued by William J. Tolone

PROJECTS

TRAILHEADS

- An application designed to help hikers and travelers find their ideal location for the next adventure. This was designed using HTML, Tailwind CSS, jQuery, and several APIs to retrieve trails based on the city location.

AGILE PROJECT MANAGEMENT | OPERATION LEAGUEPM

- The first half of this project involved planning and creating a website by performing the traditional management steps: defining, planning, executing, and reviewing. The second half was performing Agile methodology, where each week (which is one sprint) we write our articles and findings to the website based on the week's topic.

Skills & Abilities

COMPUTER SKILLS

- HTML, CSS, Bootstrap 4.5, JavaScript, jQuery, VM, Git Bash

COMMUNICATION

- Worked and communicated with other service technicians from small teams of 2 to 5 members to provide customer service
- Worked and communicated with other group members in both traditional and Agile methodologies

LEADERSHIP

- Promoted to Service Coordinator at Discount Tire (2015 – Present)
 - Lead and coordinate workflow with other service technicians
